#### Day 1 Kigali

Arrive at any time. Arrival transfer is included.

If you arrive early, take some time to explore the city, known for its pleasant, friendly atmosphere. Kigali also has some interesting and historic sites outside of the city. If you want more time to explore, we recommend booking a pre-night.

Please remember that this is a developing area and as such, accommodations/service may not be of similar standard to which you are used to in your home country. There also can be differences in service levels between different countries in East Africa. As well, interruptions in electricity and water can be common and internet/wifi is often only available in large cities. We appreciate your patience and understanding as well as your sense of adventure.

A/C is not available in the accommodations used on this trip. In general is not a concern as it does cool down at night and depending on location fans or screened windows are available.

4x4 safari vehicles are used to better navigate rough roads but important to note that vehicles do not have A/C.

### **Private Vehicle**

Kigali International Airport – Kigali

Settle in and scan the scenery from the convenience of a private vehicle.

### **Arrival Day and Welcome Meeting**

1h

The adventure begins tonight. Feel free to explore before your welcome meeting, but make sure you're back in time to meet the group. Check for the meeting time on the welcome note at the hotel. After introductions, your CEO will review the details of your tour. Please note that normal check-in times apply at our start hotels, but you can usually store your luggage for the day if you arrive early.

### **Day 2 Kigali/Volcanoes National Park**

Visit the Kigali Genocide Memorial and pay your respects to the victims of the 1994 Rwandan genocide, learning about this somber chapter of the country's past. Later, embark on a community walk in the vibrant Nyamirambo township and enjoy a local lunch at the G Adventures-supported Nyamirambo Women's Centre. Travel to northern Rwanda in the afternoon and settle into our lodge, located at the edge of Volcanoes National Park and offering stunning views of the soaring peaks.

Volcanoes National Park borders Virunga National Park in the Democratic Republic of Congo (DRC) and Mgahinga Gorilla National Park in Uganda. Five of the eight volcanoes in the Virunga Mountains can be found here. The volcanoes and highlands of the park are covered in lush rainforest and bamboo (a favourite snack of the gorillas). While the most famous resident is the mountain gorilla, there's plenty of other wildlife roaming around: buffaloes, bushbucks, golden monkeys, hyenas, numerous bird species, and some elephants call this place home.

Altitude note: Volcanoes NP - approx 2,000 m (6,550 ft)

### **Kigali Genocide Memorial Visit**

Kigali 2h

Visit the Kigali Genocide Memorial Centre, which serves as a permanent memorial to those who fell victim to the genocide in 1994. The centre opened on the tenth anniversary of the Rwandan Genocide, in April 2004, and was built on a site where more than 250,000 people are buried.

### **Your G for Good Moment: Nyamirambo Women's Centre, Local Lunch**

Located in Nyamirambo, the largest and most vibrant township in Rwanda, the centre provides women and girls from a diverse range of backgrounds, the opportunity to support each other and succeed, through education and training programs. Enjoy lunch prepared by women employed at the centre, allowing us to try local foods and popular dishes. After lunch, take some time to browse the centre's shop, which features handmade, high-quality crafts and clothes, made by some of the women at the shop, as well as other women's cooperatives throughout Rwanda. Proceeds from the meal and shop help support the centre's education and training programs, including a community library.

### **Your Journeys Highlight Moment: Nyamirambo Women's Centre, Community Walk**

Take a guided walk through the lively community, meeting some of the women who have benefitted from the centre's training programs, seeing their local businesses and initiatives and having a chance to share in their daily life. Proceeds from the walking tour help support the centre's education and training programs, including a community library.

### **4x4**

Kigali – Volcanoes National Park 3h 130km

Roads? Where this rough-and-ready vehicle's going, we don't need roads.

### **Meals included: Breakfast | Lunch | Dinner**

### **Day 3 Volcanoes National Park**

Set out on a trek in lush, jungle-covered hills with a park ranger to track a unique and endangered species—the golden monkey. Observe these playful, curious creatures in their natural habitat; then visit the Karisoke Research Center, founded by National Geographic Grantee Dian Fossey. Meet with a resident

researcher to learn about ongoing efforts to protect endangered mountain gorillas, and deepen your understanding of these gentle giants at a talk by one of the park's head wardens.

Proper hiking attire must be worn – you will be trekking in a rainforest with lots of vegetation, undergrowth, nettles and normally a rather muddy terrain.

Only 1 hour is spent with the Golden Monkeys to ensure their protection and conservation.

Please note that if you are unwell with anything contagious, even a common cold, you may be denied any of the treks to ensure the safety of the golden monkeys. This is a national park regulation, and trekking permits will not be refunded if you are denied entrance due to illness.

The order of activities over Days 3 and 4 can change depending on permit scheduling.

#### **4x4**

Volcanoes National Park

Roads? Where this rough-and-ready vehicle's going, we don't need roads.

#### **Golden Monkey Trek**

Volcanoes National Park 3h-5h

Embark on a trek in Volcanoes National Park to view a species even more endangered than the mountain gorilla – the golden monkey. It is only in Rwanda where this interesting species has been successfully habituated. Look (and listen) for these lively and curious creatures that like to chatter – they are often only seen high up in the trees, but, with luck, hikers may have a close encounter. Golden monkeys mainly live in the lower parts of the bamboo forests; they are not as socially “tight” as gorillas and chimpanzees, and the number in the habituated troupe can vary on any given day between 20 and 80.

#### **Your Journeys Highlight Moment: Mountain Gorilla Conservation Experience**

Founded 50 years ago by Dian Fossey, the Karisoke Research Center in Rwanda is considered the world's best hope for the survival of endangered mountain gorillas. Meet one of the resident researchers at the centre for a tour of the facility and to learn about their work in the protection and conservation of mountain gorillas in Volcanoes National Park. Thanks to the work Karisoke does, the mountain gorillas of this region are the only species of great ape to have increased in number in recent decades. Between 1967 and 1983, Dian Fossey received over 16 grants from National Geographic and was featured many times in the pages of National Geographic magazine.

#### **Your Journeys Highlight Moment: Gorilla Lecture**

Deepen your understanding of the world of gorillas through an in-depth lecture. Listen as one of the head wardens of Volcanoes National Park discusses topics including the history and behaviour of gorillas, threats to the animals, conservation activities, as well as the potential benefits of tourism.

#### **Meals included: Breakfast | Lunch | Dinner**

#### **Day 4 Volcanoes National Park**

Embark on an unforgettable trek through the jungle alongside a park ranger to search for mountain gorillas. When we come across a group of gorillas, witness their fascinating social dynamics up close. Note that these treks can vary in length and difficulty depending on the location of the gorillas. Return to our lodge for lunch, followed by a visit to a local village to catch a glimpse of daily rural life.

Approximately 800 mountain gorillas exist globally in the wild today. They are found in Rwanda, DRC, and Uganda. In DRC and Rwanda, gorillas live in similar ecosystems/areas. The gorilla species found in these three areas are called highland gorillas.

In Rwanda there are ten habituated gorilla families that are open to visits – the visit to a gorilla family is done once per day, with a maximum 8 trekkers per group and the duration of a visit is limited to one (1) hour with the gorilla family. The time spent with them is limited due to conservation considerations and to minimize impact on the day-to-day life of the gorilla family you are visiting. It is important to be well prepared for the trek — you never know if your total trek will be short or long. The total duration of a trek can vary and be anything between 4 and 9 hrs in length depending on the location of the gorillas, which are constantly moving. You will mainly walk where there are no paths apart from the occasional buffalo or elephant trail.

Touching the gorillas is not allowed (although in some cases they may touch you). Making loud noises or sudden movements is also not allowed. You should attempt to keep a distance of 7m from the gorillas, however the gorillas themselves are unaware of this and will often get very close, in which case you should try to slowly move away. At all times you must abide by the instructions of the trackers and rangers.

Please note that porters are available at approx. \$10USD per person. The porters are all hired from local villages and not only can carry your day pack, but assist you with a welcome hand over difficult spots. Regardless of your fitness level, we highly recommend hiring a porter as some tracks can be very muddy

and elevation can affect even the most fit person. It also provides employment and supports the local community.

Mountain gorillas share 98% of our DNA and are prone to catching human illnesses. Please note that if you are unwell with anything contagious, even a common cold, you may be denied any of the treks to ensure the safety of the gorillas. This is a national park regulation, and trekking permits will not be refunded if you are denied entrance due to illness.

Proper hiking attire must be worn – you will be trekking in a rainforest with lots of vegetation, undergrowth, nettles and normally a rather muddy terrain. Minimum age for gorilla trekking is 15 years old.

Please note that depending on the size of our group and when permits are confirmed, we may be split into 2 trekking groups and you may be trekking with non-G travellers.

### **Gorilla Trekking**

Volcanoes National Park – Kigali 4h-9h

Depart early and transfer to the national park to meet the park ranger/guide for orientation. Embark on the trek, which can vary in length and difficulty, depending on the location of the gorilla family that's being visited. Spend an hour observing these beautiful and endangered creatures. Trek back and return to the hotel with the remainder of the afternoon to yourself.

### **Iby'iwacu Village Visit**

Volcanoes National Park

Visit a small farming village where the locals have put a stop to poaching and put their focus on sheep farming. Meet the local people and get a first hand look at rural life in this area.

### **Day 5 Volcanoes National Park/Queen Elizabeth National Park**

After breakfast, cross into Uganda on a 4x4. Arrive at our lodge near Queen Elizabeth National Park, one of the largest and most popular parks in Uganda.

Queen Elizabeth National Park is characterized by open savannah, large areas of swamp around Lake George, the extensive Maramagambo Forest in the southeast, and the forested Kyambura Gorge along the border with Kyambura Game Reserve.

There is little accommodation inside the national park that fits our upgraded service level. Most of the mid-range lodges are adjacent to the park but it can often take approx. an hour to reach the park gates due to poor road logistics and conditions. For this reason there is a lot of driving to get to/from activities within the national park area.

Learn about the habits and social activities of these endangered primates—our closest relatives in the animal world—and gain insights into current efforts to protect them. This afternoon, visit Queen Elizabeth National Park for a safari through rolling savanna and shrubland, keeping your eyes peeled for buffalo, elephants, leopards, lions, and hyenas.

The order of activities over Days 6 and 7 can change depending on chimp permit scheduling.

Proper hiking attire must be worn – there are trails but we can at times go off trail, to search out chimps. Vegetation can be thick with undergrowth, nettles and often in muddy terrain.

At all times you must abide by the instructions of the trackers and rangers.

Please note that if you are unwell with anything contagious, even a common cold, you may be denied any of the treks to ensure the safety of the chimps. This is a national forest regulation, and trekking permits will not be refunded if you are denied entrance due to illness.

Step ashore at Crescent Island—a peaceful wildlife sanctuary located in the middle of the lake— and enjoy a guided stroll in search of wildebeest, zebras, and giraffes.

The name Naivasha comes from the Maasai “Nai’posha”, which means “rough water”, though Lake Naivasha is generally calm as we watch for hippos and birdlife. Then we'll make our way into the reserve for an afternoon wildlife safari drive, with excellent chances of seeing the “big five”: buffalo, elephant, leopard, lion, and rhino.

### 2. PHYSICAL REQUIREMENT (Rwanda/Uganda)

This trip is rated a level 4 physical requirement- travellers should be in excellent physical condition, without any heart problems and prepared to spend strenuous days in humid rain forests, steep terrain and high altitude trekking for chimpanzee and gorillas, as well as other primates. ### 4. WILDLIFE SIGHTINGS

G Adventures can never guarantee the sighting of wildlife, especially when it comes to mountain gorillas. However, the mountain gorilla trek is organized to ensure success. Before heading into the jungle, our local guides receive coordinates from trackers on the whereabouts of the gorillas, and the trackers stay with the gorillas until the group arrives.

### 5. ILLNESS

Please note that if you are unwell with anything contagious, even a common cold, you may be denied any of the treks to ensure the safety of the gorillas, golden monkeys and chimps. This is a national park regulation, and trekking permits will not be refunded if you are denied entrance due to illness.

### 6. CAMERAS (Rwanda/Uganda)

As it is very dark and damp in the jungle; please ensure your camera equipment is appropriate for such conditions and that you bring dry bags to protect it.

### 7. ELECTRICITY

The power supply in Kenya, Uganda and Rwanda is nominally 240VAC, 50hz. Variable voltage, spikes and sporadic, unexpected, unscheduled power cuts of varying duration can be expected.

### 8. YELLOW FEVER

Please be advised that it will be required to show a yellow fever certificate upon entering Kenya, Uganda and Rwanda.

## 9. AIRPORT & BORDER HEALTH SCREENINGS

Due to the outbreak of Ebola Virus Disease (EVD) in the Democratic Republic of the Congo (DRC), Rwandan and Ugandan authorities have implemented health screening measures at entry points, including airports and border crossings. Authorities may conduct health screenings of any incoming travelers, including routine medical questioning and temperature readings. Currently, there are no reported cases of Ebola in Uganda or Rwanda, but we want you to be aware of the precautionary measures that are being taken. We recognize that new security measures may be implemented daily throughout the region, so we wish to prepare you with the most current information.

According to the Centers for Disease Control and Prevention (CDC), the Ebola virus is transmitted only through contact with the bodily fluids of an infected individual, as it is not an airborne illness. Per CDC recommendations, we advise our travelers to follow these general hygienic guidelines to help prevent illness while traveling:

- Wash hands with soap and water or an alcohol-based hand sanitizer.
- Avoid contact with the bodily fluids of others.
- For more information about the Ebola virus, please consult the CDC's webpage dedicated to information about Ebola: <http://www.cdc.gov/vhf/ebola/>

## 10. COMBO TRIP

This tour combines with other G Adventures tours. As such, the staff and some travel companions on your tour may have previously been traveling together with G Adventures, prior to Day 1 of your tour. Likewise, some staff and travel companions may be continuing together on another G Adventures tour, after your trip concludes.

## Group Leader Description

---

The Chief Experience Officer (CEO) will be the group manager and leader. He/she organizes the trip, and will be there to assist you when needed. He/she will take care of the small things so you can concentrate on enjoying your adventure. All of our CEOs in East Africa are experienced group leaders, with a broad knowledge base of the region's history, cultures, and wildlife. Your leader will be from either southern or East Africa depending on which part of the tour you are on. In Rwanda/Uganda the CEO will also drive.

During both treks in Volcanoes National Park, we use an experienced and certified tracking guide, and armed guards to accompany you for your safety.

We also use local guides for some included activities where we think more specific knowledge will add to the enjoyment of the places we are visiting.

In Kenya:

## About our Transportation

---

In Rwanda / Uganda:

Road travel can be difficult, with long drives and poor road conditions at times. Please take note of the travel times and distances in the above itinerary, and consider that this is often on poor quality, bumpy roads. Despite this, most clients feel that the diversity of the African landscape, culture and wildlife are

all well worth the experience. As such, this trip will be operated in 4x4 Land Cruiser/safari vehicle. The 4x4s have large windows which slide open for wildlife viewing and photography.

In Kenya:

This trip is done in private 7-seat 4x4 safari vehicle. With sliding windows and a large pop-up roofs, these vehicles are designed for wildlife viewing. Road conditions can run the full range of conditions from new to very poor, and during dry seasons, the roads can become very dusty. This style of travel is the best under the local circumstances, as the seats are comfortable and having our own private vehicle allow us the flexibility of making stops when needed, and to stay and watch that crouching lion prepare for an attack.

Speed governors set to 80kph are used on all vehicles to ensure a safe driving speed. Please note for your own safety it is mandatory to wear your seat belt at all times when in a vehicle.

All G Adventure vehicles are regularly serviced and follow a strict maintenance schedule. However given the long travel days and rough conditions of many of the roads in Africa, vehicles can and do breakdown on occasion. If such situations occur all drivers are trained mechanics and any vehicle issues are rectified as quickly as possible so as to not disrupt your trip. Your patience is requested if the vehicle you are travelling in happens to encounter a mechanical fault.

Note:

1) Under certain circumstances we reserve the right to change accommodation and provide something slightly different to what is described, though it will always be of similar or better standard/level.

2) Most lodges and camps do not have 24hr electricity - they usually run on generators which are routinely shut off overnight from approximately 10pm to 5am.

3) Lodges and camps are NOT equipped with fans or air conditioning due to the electricity constraints listed above.

4) Winter nights (June to September) can be cold, and most lodges and hotels do not have insulation or central heating. If you require additional blankets or a hot water bottle, these can be requested through your CEO or at the reception.

## Local Flights

---

The flight between Entebbe and Nairobi is included, tickets will be given to you locally.

## Solo Travellers

---

We believe solo travellers should not have to pay more to travel so our group trips are designed for shared accommodation and do not involve a single supplement. Single travellers joining group trips are paired in twin or multi-share accommodation with someone of the same sex for the duration of the trip. Some of our Independent trips are designed differently and solo travellers on these itineraries must pay the single trip price.

## Accommodation

---

Hotel/Lodge (13 nts), comfortable tented camps (2 nts).

## My Own Room

---

Please note that if you have booked the "My Own Room" option for this tour, you will receive your own single room for all night stops

## About Accommodation

---

Start and end hotels on this tour offer comfortable accommodations with en-suite bathrooms, standard facilities, and wifi. Additional amenities vary from location to location. Please see the hotel listings on the Full Itinerary if you would like to learn more about the offerings of your accommodations.

The tented camp accommodations on this tour are situated centrally, with easy access to the park for wildlife safari drives. Tents are typically spacious with mosquito-proof netting, comfortable bedding, and en-suite bathroom with flushing toilets and camping showers.

Please remember that hotel/lodge/camp standards can be different from what you are used to in your home country, which is part of the appeal of adventure travel.

Note:

1) Under certain circumstances we reserve the right to change accommodation and provide something slightly different to what is described, though it will always be of similar or better standard/level.

2) Most lodges and camps do not have 24hr electricity - they usually run on generators which are routinely shut off overnight from approximately 10pm to 5am.

3) Lodges and camps are NOT equipped with fans or air conditioning due to the electricity constraints

listed above.

4) Winter nights (June to September) can be cold, and most lodges and hotels do not have insulation or central heating. If you require additional blankets or a hot water bottle, these can be requested through your CEO or at the reception.

## What to Take

---

You will be on the move a lot, so our advice is to pack as lightly as possible. Your baggage should be clearly labelled and restricted to one soft compact suitcase, sports bag, or backpack, of medium size, as well as a day pack.

On this trip you may experience several types of weather. It is important to pack clothes for warm days and cool evenings. Light, quick-drying, practical clothes are advisable for this trip.

While hiking, your clothes will in all likelihood get very muddy and may not recover to their original state - therefore take old clothing for trekking. Hard wearing clothes, no bright colours, or no army camouflage clothing should be worn. Greens, khaki and similar neutral clothes are recommended.

## Visas and Entry Requirements

---

All countries require a valid passport (with a minimum 6 months validity). Contact your local embassy or consulate for the most up-to-date visa requirements, or see your travel agent. It is your own responsibility to have the correct travel documentation. Visa requirements for your trip will vary depending on where you are from and where you are going. We keep the following information up to date as far as possible, but rules do change and sometimes without warning. While we provide the following information in good faith, it is vital that you check the information yourself and understand that you are fully responsible for your own visa requirements.

Visa information specific to your destination and nationality can be found in our Important Pre-Departure Information page [here](#)

#### East Africa Tourist Visa

An East Africa Tourist Visa allows the holder to move freely between Kenya, Rwanda and Uganda with only one Visa, and is valid for a period of 90 days. It also acts as a multiple entry Visa, so if you leave any of the above countries, you do not need a new Visa to re-enter (provided it is within the 90 day validity period). These need to be applied for in advance, and a confirmation letter received from the Rwanda immigration department if the first point of entry is Kigali, Rwanda. You should contact the foreign Embassy (of the country you will be entering through) for more details. The cost is 100USD per person.

<https://irembo.gov.rw/rolportal/en/web/dgie/east-africa-tourist-visa>

-----

#### RWANDA

Most nationalities need to apply for visa “facilitation” prior to visiting Rwanda. Please check the Rwanda immigration department’s official website – [www.migration.gov.rw](http://www.migration.gov.rw) – which nationalities need a visa and which ones do not – it is VERY important to do this as travellers without the correct documentation with

them will NOT be allowed to board their Rwanda bound flight. The visa facilitation is also applied for on this website and you normally get a confirmation in 3-5 working days. Please make sure you apply for this at least a month before your intended arrival to Rwanda. Bring a copy of the visa approval sent to you (VERY important) and pay for the visa at point of entry. Current cost for a 15 day tourist visa is US\$ 50 per person (June 2015) – payable in US\$ cash only. Please be aware that the US\$ notes has to be from 2006 or newer, older notes are NOT accepted for payments in Rwanda.

\*\* Please be advised that a valid yellow fever vaccination card is mandatory for entry into Rwanda.

## UGANDA

Visas for Uganda for most nationalities must be obtained through an Electronic Visa application online in advance, and a payment of \$100 USD cash will have to be made upon arrival to the border.

### LIST OF COUNTRIES WHOSE NATIONALS DO NOT REQUIRE TO PAY FOR A VISA TO ENTER UGANDA:

Angola, Antigua, Bahamas, Barbados, Belize, Burundi, Comoros, Cyprus, Eritrea, Fiji, Gambia, Grenada, Italy (Diplomatic Passport holders only), Jamaica, Kenya, Lesotho, Malawi, Mauritius, Madagascar, Rwanda, Seychelles, Sierra Leone, Singapore, Solomon Islands, St. Vincent and Grenadines, Swaziland, Tanzania, Vanuatu, Zambia and Zimbabwe.

Nationals of these countries are issued gratis (free of charge) visas upon their arrival.

### Kenya

The Kenyan Government has introduced an electronic visa process with effect from July 2nd. Travellers wishing to enter Kenya need to visit [www.ecitizen.go.ke](http://www.ecitizen.go.ke) and follow instructions for processing their electronic visa in advance of their arrival into Kenya. As this measure was introduced with little advance notice, there is a grace period where travellers may continue to apply upon arrival into Kenya for their visa. A transit visa, which is valid for 6 nights / 7 days within Kenya, for one entry into Kenya only, costs US\$10 OR 10 GBP OR 10 EUR or 10 SWF. Please note that Kenya is now strictly enforcing a "blank pages, condition of entry". All those requiring a visa on arrival must have at least two blank pages available in their passports. Failure to meet this requirement could mean that entry will be refused. This information is accurate at the time of writing. Though as fees and policies can change, we highly recommend that you contact your local embassy or consulate for the most up-to-date visa requirements, or see your travel agent. It is your responsibility to have the correct travel documentation.

This information is accurate at the time of writing, and please contact your local embassy or consulate for the most up-to-date visa requirements and costs, regarding these, and the other countries visited, or see your travel agent. It is your responsibility to have the correct travel documentation.

## Spending Money

Every traveller is different and therefore spending money requirements will vary. Some travellers may drink more than others while other travellers like to purchase more souvenirs than most. Please consider your own spending habits when it comes to allowing for drinks, shopping and tipping. Please also remember the following specific recommendations when planning your trip.

## Money Exchange

The local currency in Rwanda is the Rwanda Franc. In Uganda it is the Ugandan Shilling.

There are several foreign exchange bureaus in Kigali offering similar rates, the most widely accepted currency is US\$. Your CEO will inform you where you can change money throughout the tour and approximately how much money you will need for each country. That said - most everything is included in this tour - we recommend that you bring enough USD cash with you, to cover for any additional drinks/ snacks and souvenir shopping.

The local currency in Kenya is the Kenyan Shilling (KES, or KSH).

Shillings can be obtained locally by changing foreign currency or by using ATMs (where available) which will disperse local currency. Your CEO will inform you where you can change money throughout the tour and approximately how much money you will need for each country.

The easiest foreign currency to exchange for locally for any of the local currencies is the \$US; however the British Pound and Euro may also be exchanged as well. Please note that due to past problems with forgery, \$US notes that are older than year 2006 are not accepted in Africa. Larger note (\$US 50, \$US 100 etc) can be difficult to change in some places, but will gain you the best exchange rate.

If you plan to buy your visas at borders, you will need to bring \$USD cash to pay for these visas. Please note you cannot use the local currency or any other currency to buy these visas- they must be purchased in USD.

Please do not bring Travellers' cheques to Africa. They are difficult if not impossible to exchange in many places.

Visa/Plus system cards are the most widely accepted debit cards. It is harder to find machines Mastercard/Cirrus cards. We highly recommend that if you hold a Mastercard, you obtain a Visa card prior to departure and travel with both. This is also useful should something unforeseen happen to one of your cards during your travels. While there are many ATMs in the major centres, there are no guarantees that your credit or debit cards will actually work in Africa. Check with your bank.

Credit cards can be used in major cities and towns ONLY but please do not rely on them as a method of payment because they are generally not widely accepted. You should be aware that to purchase products or services on a credit card a fee of 5%-10% usually applies. The majority of our optional activities can also be paid by credit card. Your CEO will advise on these.

Please note that in many areas there may be occasional power-outages, where there will be no electricity for hours at a time. In addition, ATMs outside of larger centers often run out of cash or can be out of order unexpectedly. These factors could affect your ability to access money from ATMs. As such, please do not rely on credit or debit cards as your only source of money.

A combination of foreign currency and debit/credit cards for cash advances is best. Always take more rather than less, as you don't want to spoil the trip by constantly feeling short of funds.

As currency exchange rates can fluctuate often we ask that you refer to the following website for daily exchange rates: [www.xe.com](http://www.xe.com).

## **Emergency Fund**

---

Please also make sure you have access to at least an additional USD \$200 (or equivalent) as an 'emergency' fund, to be used when circumstances outside our control (ex. a natural disaster) require a change to our planned route. This is a rare occurrence!

## **Departure Tax**

---

USD40, usually included in most international air tickets.

## **Tipping**

---

Tipping is an expected, though not compulsory, component of your tour program. The gesture serves as an expression of appreciation for exceptional service, and amounts given are up to your discretion.

Tipping is one of the most direct ways that you can have a positive economic impact within the African community. Although it may not be customary for you, it is an important source of income for those in the tourism industry. Giving a tip should be seen as a formal 'thank you', and the action should in no way be awkward.

The best method of tipping someone that has served the whole group is to plan in advance, and not rush when it comes to saying goodbye. A suggestion would be for each group member to contribute anonymously by putting their tip into an envelope. This often works the best and the group should gather to present the gift to the recipient(s), offering their thanks and showing their appreciation. This method brings the action out into the open, allowing for a friendly and appreciative interaction between the group and the recipient(s).

You may use the following as a guideline, all given in a per person format:

G CEOs and drivers: \$5-10 USD each, per day worked.

Gorilla Trekking Guides: \$10-15 USD (per day)

Gorilla Trekking Porters: \$20 USD (per day)

Restaurant/Café servers: 10% of cost of bill, especially when in a large group (no envelope required).

Local guides: \$1 USD for every couple of hours

## **Optional Activities**

---

No optional activities

## **Health**

---

We recommend you contact your family physician, or your local travel clinic for the most up-to-date health information at least one month before departure. Travellers should also carry a basic first-aid kit and hand sanitizers/antibacterial wipes on their travels. Medical facilities are basic throughout these

countries. For your own safety, we strongly recommend that you advise your tour leader of any medical condition that may affect you while travelling with the group. Your tour leader will be able to inform you of local health advisories (e.g. drinking water quality). Please ensure you have all the inoculations recommended by your doctor.

#### Yellow Fever Certificate Note: (Updated: May 2017)

It is compulsory to show a valid Yellow Fever Certificate if you are travelling to the following G Adventures-visited countries from a Yellow Fever endemic country:

- Botswana
- Ethiopia
- Kenya
- Madagascar
- Malawi
- Mozambique
- Namibia
- Rwanda
- South Africa
- Swaziland
- Uganda
- Zambia
- Zimbabwe

For some of these countries, proof of Yellow Fever vaccination is also required for passengers who have travelled more than 12 hours through the airport of an endemic country. If other countries not endemic to Yellow Fever have been visited after visiting an endemic country, then a Yellow Fever certificate may still be required on entry. Please check country-specific regulations before your departure.

#### Malaria

Malaria is a mosquito-borne disease that is present in some regions in Africa. Risk of malaria can increase during periods of heavy rain, during the rainy seasons, and in densely populated areas of Southern & East Africa. To prevent malaria, we recommend speaking to your doctor about taking preventative medication (prophylaxis), combined with regular use of insect repellent spray/cream. Please check updated travel health advisories specific to malaria before your departure.

## Safety and Security

---

Many national governments provide a regularly updated advice service on safety issues involved with international travel. We recommend that you check your government's advice for their latest travel information before departure. We strongly recommend the use of a neck wallet or money belt while travelling, for the safe keeping of your passport, air tickets, travellers' cheques, cash and other valuable items. Leave your valuable jewellery at home - you won't need it while travelling. Many of the hotels we use have safety deposit boxes, which is the most secure way of storing your valuables. A lock is recommended for securing your luggage. When travelling on a group trip, please note that your group leader has the authority to amend or cancel any part of the trip itinerary if it deemed necessary, due to safety concerns. Your Chief Experience Officer (CEO) will accompany you on all included activities. During your trip you will have some free time to pursue your own interests, relax and take it easy and explore at your leisure. While your CEO will assist you with options available in a given location, please note that any optional activities you undertake are not part of your itinerary, and we offer no representations about the safety of the activity or the standard of the operators running them. Please use your own good judgement when selecting an activity in your free time. Although the cities visited on tour are generally safe during the day, there can be risks to wandering throughout any major city at night. It is our recommendation to stay in small groups and to take taxis to and from restaurants, or during night time excursions.

Water based activities have an element of danger and excitement built into them. We recommend only participating in water based activities when accompanied by a guide(s). We make every reasonable effort to ensure the fun and adventurous element of any water based activities (in countries with varying degrees of operating standards), have a balanced approach to safety. It is our policy not to allow our CEOs to make arrangements on your behalf for water based activities that are not accompanied by guide(s).

Swimming, including snorkeling, is always at your own risk. [Read more about travel safety](#) for ways to further enhance your personal safety while traveling.

## Trip Specific Safety

---

### Cities

Please exercise caution in the cities and always take a pre-arranged taxi if you go out at night.

### Trekking/safari

At all times, please abide by all National park/reserve rules and always follow interactions from guides/trackers specifically, these are set to not just protect the wildlife but also to protect you.

### Photography

Please refrain from taking photos of police stations, airports, bus stations, immigration or border crossings, army barracks and personnel, or any government building. It is against the law and will result in the minimum of your film and camera being confiscated.

### \*\*NAIROBI

...isn't classed as a safe city. Some precautions you should take are:

\*Always leave your passport (It's better to carry a photocopy of it instead), traveller's cheques, flight tickets and money that you won't be using in the safe deposit at the hotel reception. This is free of charge to G Adventures clients.

\*Remember that like in any other city, you should never leave your bags unattended, nor flaunt jewellery, cameras etc

\*Please don't wander through the city to unknown areas especially at night. Stick to the main streets only during the day, and after sundown, please take a taxi. Taxis can be organised from reception. Also, take the address of the hotel with you.

\*People are generally friendly, but don't let people take advantage of you, especially the sales people!

\* Beware of people approaching you on the street with an apparent interest of where you are from, and want to sit down and have a chat with you. These people are con men and will ask you for money.

\* People on the street who ask you if you want a safari and have a brochure are often con men, best to avoid these folk. Besides, you're already on safari

## A Couple of Rules

---

Illegal drugs will not be tolerated on any trips. Possessing or using drugs not only contravenes the laws of the land but also puts the rest of the group at risk. Smoking marijuana and opium is a part of local culture in some parts of the world but is not acceptable for our travellers. Our philosophy of travel is one of respect towards everyone we encounter and in particular the local people who make the world the special place it is. The exploitation of people in the sex trade is completely contrary to this philosophy. Our CEOs have the right to expel any member of the group if drugs are found in their possession or if they utilize the services of paid sex workers, in any capacity.

## Travel Insurance

---

Travel insurance is compulsory in order to participate on any of our trips. When travelling on a group trip, you will not be permitted to join the group until evidence of travel insurance has been sighted by your leader, who will take note of your insurance details. When selecting a travel insurance policy we require that at a minimum you are covered for medical expenses including emergency evacuation and repatriation. A minimum coverage of USD200,000 is required. G Adventures can provide you with the appropriate coverage. We strongly recommend that the policy also covers personal liability, cancellation, curtailment and loss of luggage and personal effects. Some tours include adventure activities that require extra coverage (e.g. crampon use); please review your itinerary and make sure that you are covered for all included activities. If you have credit card insurance we require proof of purchase of the trip (a receipt of credit card statement) with a credit card in your name. Contact your bank for details of their participating insurer, the level of coverage and emergency contact telephone number.

## Planeterra Foundation - the non-profit partner of G Adventures

---

Planeterra International Foundation is a non-profit organization committed to turning travel into impact by helping local communities earn an income from tourism. Planeterra connects underserved local communities to the benefits of tourism by developing and supporting small community-owned businesses. These businesses support Indigenous people, empower women, grant youth access to employment opportunities, and protect the environment. Planeterra also works to ensure these businesses have a thriving customer base by integrating their projects into G Adventures' itineraries globally.

G Adventures is Planeterra's largest corporate donor, covering all operating costs, so 100% of your donation will bring opportunity to people in need.

G Adventures Dollar-a-day Program - Make Every Day Count - Turn your travel into impact with [Planeterra Foundation](#).

Did you know? Most communities around the world do not benefit from tourism. Give back to the places you visit on your travels by creating opportunities for local people to earn an income, and protect the environment.

Make every day count by donating \$1/day for the length of your trip, and join us in empowering the communities you will visit when you travel. 100% of your donation goes directly to Planeterra projects.
